WELCOME

We are proud to offer a comprehensive and competitive benefits program designed to meet the diverse needs of our employees. We review the program each year to ensure that it complies with federal requirements. The offering we provide meets our overall benefit objective of providing a balance of quality and affordable benefits for you and your family members.

ENROLLMENT & ELIGIBILITY

ENROLLMENT ONLINE

You can make your benefit elections and submit any midyear changes through Workday. You will receive a task in your Workday inbox with benefit enrollment instructions.

When Coverage Begins

New Hires:

Benefits become effective on the first day of the month following your date of hire. If you are benefits-eligible, you must enroll during your first 30 days of employment with North Highland. If you do not enroll during your first 30 days of employment, you will not receive coverage. Unless you experience a family status event (see page 4 for more information), your next opportunity to enroll in benefits will be during the annual benefits enrollment period, typically held in the fall of each year for the upcoming year. Supplemental life and voluntary long term disability insurance requires evidence of insurability (EOI) for late entrants.

Coverage for Dependents

You have the ability to cover eligible dependents on your benefits through North Highland. Eligible dependents include:

- Your legal spouse
- Your same or opposite sex domestic partner
- Your natural and adopted unmarried children to age 26
- Your spouse's or domestic partner's natural and adopted unmarried children to age 26
- Unmarried dependent children of any age who are handicapped

Note: when covering a domestic partner, your per payroll deductions for the various benefits will reflect a different amount than what is listed in this benefit guide due to IRS rules regarding imputed income.

IMPORTANT INFORMATION

CHANGE IN YOUR COVERAGE MID-YEAR

The IRS provides strict regulations about changes to pretax elections during the plan year. If you experience a qualified IRS family status change mid-year, you are permitted to make a change within 31 days of the event. If the change request is not completed within 31 days of the event, you will not be able to change your elections until the following year's annual benefits enrollment period, which means the change will not be effective until January 1 of the following year. Below is a list of some of the more commonly known qualified family status changes:

- Marriage, divorce or annulment, or permanent separation from your spouse/domestic partner.
- Birth of a child.
- Placement of a foster child or child for adoption with you, or assumption of legal guardianship of a child.
- Change in your spouse's/domestic partner's or dependent's employment status that affects benefits eligibility, including termination or commencement of employment or change in worksite.
- You or your dependent becomes eligible or loses eligibility for Medicare or Medicaid.
- The death of your spouse/domestic partner or dependent.
- Court ordered coverage of your child by you or your spouse/domestic partner, allowing you to add or drop the child's coverage.
- Change in your employment that affects benefits eligibility (working less than 20 hours per week).
- Loss of eligibility for a dependent.
- Change in dependent care provider or cost for dependent care FSA.

The change you request must be consistent with the qualifying event and also requires that documentation be provided within 31 days of the event. Please complete any changes to your enrollments online through Workday by clicking the Benefits Application (#1), then the word Benefits in the Change section (#2). A job aid for processing qualified family status changes is located on The Hub under Global Services/People (HR)/Total Rewards/Benefits Information (US). If you need assistance, email askbenefits@northhighland.com.

HEALTH SAVINGS ACCOUNT (HSA)

HSA Overview

An HSA is an individual account that belongs to you. The funds you contribute are tax-free and if you spend funds in your HSA on qualified medical, dental, vision and prescription expenses – now, in the near future, or in retirement – those funds generally won't be subject to federal taxes.

Contributing to Your HSA

You choose how much you want to contribute to your HSA per pay period. You can make changes to your HSA contribution at any time through the year by going to the Benefits Application in Workday and clicking on "Change Benefits". Select "Year Round Enrollment" as the Benefit Event Type.

In order to receive the company HSA contribution from North Highland, you are required to have an HSA account administered by Optum Bank. To begin this process, you must elect the HSA within your benefits enrollment task in Workday. This account will be opened for you once your eligibility information has been passed to Optum Bank. Please note that Optum Bank may contact you for additional information. Company contributions are based on how many family members you cover under your medical plan and are deposited into your HSA biweekly through payroll. **The annual contribution from North Highland is prorated based on your benefits effective date.**

Any contributions made by North Highland count towards the IRS maximum annual contribution limit. Because you have the opportunity to earn health and well-being dollars through the firm, the annual maximum HSA contributions you can contribute through North Highland payroll are less than the IRS maximum.

Tax savings with an HSA

You can make before-tax HSA contributions through payroll deductions and enjoy immediate tax benefits. For example, if you contribute \$1,000 and are at the 25% federal tax rate, you'll have \$1,000 to spend on qualified medical expenses - not \$750, which is the amount you'd have left after paying your federal taxes.

Generally, you can also pay for qualified medical expenses for your spouse or any qualified tax dependents. If your domestic partner is not a tax dependent, distributions from your HSA for his or her qualified medical expense are not tax-free. For a complete list of qualified medical expenses please visit www.irs.gov/publications/p502/index.html.

Employee + Child(ren)	\$7,100	\$1,350	\$600	\$5,150
Employee + Family	\$7,100	\$1,750	\$600	\$4,750

If you are age 55 or older, you can contribute an additional \$1,000 per year to your HSA in the form of catch-up contributions.

**The IRS limits, North Highland contribution amounts and your maximum contribution are based on being enrolled for all of 2020. Your actual maximums and contribution from North Highland will vary based on your benefits effective date.*

The critical illness coverage through MetLife provides lump sum payments directly to you in the event that you are diagnosed with one of thirty covered conditions.

Employees can enroll in the coverage with initial benefit amounts of \$5,000 or \$10,000. Spouses, domestic partners, and dependent children are also eligible for coverage at 50% of the employee initial benefit amount.

Your initial benefit provides a lump sum payment upon the first diagnosis of a covered condition. Your plan pays a recurrence benefit for the following covered conditions: heart attack, stroke, coronary artery bypass graft, full benefit cancer and partial benefit cancer. A recurrence benefit is only available if an initial benefit has been paid for the covered condition under this plan.

The maximum amount that you can receive through your critical illness plan is called the total benefit and is 3 times the amount of your initial benefit. This means that you can receive multiple initial benefit and recurrence benefit payments until you reach the maximum of 300% (\$15,000 or \$30,000). Please refer to the table below for the percentage benefit amount for each covered condition.

Covered Conditions	Initial Benefit MetLife Critical Illness Insurance Pays YOU	Recurrence Benefit MetLife Critical Illness Insurance Pays YOU

The rates associated with this plan are based on the employee's age. Please refer to your benefit enrollment form in Workday for the biweekly cost of coverage based on your election.

TAX-ADVANTAGED ACCOUNTS

Health Flexible Spending Account (FSA)

If you waive medical coverage through North Highland, you can contribute up to \$2,700 pretax annually into the health FSA. Your contribution is made via payroll deductions and the total amount you elect is accessible immediately. The money you contribute can be used to cover qualified out-of-pocket costs such as medical, dental, and vision expenses; prescription drugs; and over-the-counter medication with a doctor's prescription.

You may use your debit card to pay for qualified expenses at the time of service or you may receive reimbursement through paper or online claim submissions. Please keep copies of all of your receipts as you may be asked to substantiate your claims as qualified expenses under the IRS guidelines.

Limited Purpose FSA

If you enroll in medical coverage through North Highland, you have access to a limited purpose FSA. You can contribute up to a maximum of \$2,700 pretax annually. You may use the limited FSA to pay for qualified dental and vision expenses.

Dependent Care FSA

You can contribute money through payroll deductions into a dependent care FSA to be used toward care for a child under the age of 13, a physically or mentally disabled parent or child, or elder care for tax-qualified dependents. If you're single or married and filing a joint tax return, you can contribute up to \$5,000 into this FSA. If you're married and file separately, you can contribute up to \$2,500. If you are a highly-compensated employee under the IRS definition you may be restricted to a lower annual contribution.

Dependent care FSA funds are only available as they are deposited to your account through payroll deductions. To qualify for reimbursement, these expenses must be incurred so that you (and/or your spouse/domestic partner) can work or go to school. High Deductible Health Plan (HDHP) members are allowed to participate in the dependent care FSA. Qualified dependent care expenses may be reimbursed through paper or online claim submissions. Please keep copies of all of your receipts as you may be asked to substantiate your claims as qualified expenses under the IRS guidelines.

Transportation/Commuter Benefit

We understand that there are costs associated with commuting to work. A transportation reimbursement account (more commonly known as commuter benefits) allows you to pay for a portion of qualified parking or transit passes using pretax dollars through payroll deductions.

Transit and parking funds are only available as they are deposited to your account through payroll deductions. Please keep copies of all of your receipts as you may be asked to substantiate your claims as qualified expenses under the IRS guidelines. Balances are not subject to "use it or lose it" rule.

Mass Transit

Qualified Transit funds can only be accessed and used through debit card transactions. Transit funds are not available for reimbursement through paper claim forms. Qualified expenses include costs associated with a pass, token, fare card, voucher or similar item allowing you to ride on a publicly or privately operated bus, rail, van, or ferry service that seats at least six adults. Under this benefit, you can set aside up to \$260 per month.

Parking

You may use your debit card to pay for qualified parking expenses at the time those services are incurred or you may receive reimbursement through paper or online claim submissions. Qualified expenses include costs associated with parking provided on or near the workplace. Also included is parking provided on or near the location from where you commute to work using mass transit or van-pools. This does not include parking on or near your home. Parking funds are only available as they are deposited to your account through payroll deductions. Please keep copies of all of your receipts as you may be asked to substantiate your claims as qualified expenses under the IRS guidelines. Under this benefit, you can set aside up to \$260 per month.

If you have any questions about FSAs or the Commuter Benefits, go to www.flores247.com or call Flores at 800-532-3327.

401(k) PLAN

401(k) Plan – Principal

As a North Highland employee, you are eligible to participate in the company 401(k) retirement plan. You can access your Principal account after you have received your first paycheck. To access your account, go to www.principal.com. Once logged into your account, you can update your contribution percentage, investment direction, etc. For questions, contact a Principal Retirement Specialist at 800-547-7754. **If you do not make an election on your own, you will be automatically enrolled with a pre-tax salary deferral contribution of 3%.**

For every dollar you contribute, North Highland will make a discretionary match of 50% of the first 6% of pay you contribute in a calendar year in which you are an active employee on December 31st. Because these contributions are discretionary, they may vary from year to year. Matches are generally made in the 1st quarter of the following year.

Employee Stock Ownership Plan (ESOP)

North Highland's ESOP is a retirement plan for all U.S. employees. Contributions are made by the company and are in the form of company stock.

You receive a contribution if you work 1,000 hours in any calendar year and are an active employee on December 31st. It takes 6 years to become fully vested. Vesting schedule is as follows:

Years	Vesting Percentage
Year 1	0%
Year 2	20%
Year 3	40%
Year 4	60%
Year 5	80%
Year 6	100%

Contributions are targeted at 1% to 5% of eligible compensation. For questions, contact a Principal Retirement Specialist at 800-547-7754.
