

Build your Career with a Nationwide Leader

One of the nation's largest post-acute health care providers, we care for thousands of chronically critically ill patients every year. Because our patients require a longer stay and a more resource-intensive level of care, we offer a unique setting for professional development.

As a nurse with Select Medical, you can:

- » Develop specialized skills to treat a variety of complex patients
- » Build relationships with patients and their families in a caring and compassionate environment
- » Use all of your nursing skills on a daily basis
- » Collaborate with an interdisciplinary team of RTs, PTs, OTs, SLPs and physicians to help patients regain independence
- » Own your future with a company that promotes from within

In addition to great benefits and compensation, we also invest in our nurses through:

Comprehensive new graduate orientation

Career advancement plan for CCRN

ASN to BSN scholarship opportunity
