

# ST. CLOUD HOSPITAL DEPARTMENTS

As the largest health care facility in the region, St. Cloud Hospital offers a full spectrum of inpatient and outpatient services.

From state-of-the-art care for heart disease and cancer to preventive health screenings and behavioral health counseling, we have the technology and skilled professionals to meet the needs of a growing region. St. Cloud Hospital has been named a 100 Top Hospital® by Truven Health Analytics™ eleven times, more than any other hospital in Minnesota. St. Cloud Hospital has also received Magnet recognition four times since 2004, one of only 49 hospitals worldwide to receive four or more Magnet designations.

## ADDICTION SERVICES: ADULT ADDICTION SERVICES, ADOLESCENT ADDICTION SERVICES AND THE ADDICTION MEDICINE CLINIC:

- **Adult:** Maximum census capacity of about 120  
**Adolescent:** 15 beds  
**Clinic:** About 21 patients per day
- About 5 RNs on staff
- Serving patients who have a substance use disorder (many of our patients also have a co-occurring mental health diagnosis as well). Adolescent serves 12-18 years of age. Clinic and Adult Services sees patients over age 18.

## BIRTH CENTER:

- 44-bed unit with 27 allowing for 2 patients including an infant with approximately 129 RNs.
- **Patient Population:** Antepartum, L&D, OR/PACU, Postpartum, Special Care Nursery, Level 1 Nursery.

## CARDIAC INTENSIVE CARE UNIT (CICU):

- 14-bed unit with about 40 RNs
- **Patient Population:** Critically ill cardiac patients. Examples: post cardiac arrest, cardiogenic shock, decompensated heart failure and pre-surgical cardiac patients.

## CARDIOVASCULAR THORACIC UNIT (CVTU):

- 20-bed unit with about 35 RNs
- **Patient Population:** Surgical/procedural cardiac patients. Examples: patients with ventricular assist devices (LVADs), coronary artery bypass grafting, mitral and aortic valve repairs and replacements, carotid stenting, carotid endarterectomy, AAA repair and various vascular surgeries.

## CENTER FOR SURGICAL CARE:

- 38-bed unit with about 40 RNs
- **Patient Population:** Orthopedics, cardiac/endovascular, plastics, neurosciences, pain, dental, eye, bariatrics, podiatry, oral/maxillofacial, vascular, urology, OB/GYN, ophthalmology, ranging from infants to 100+ years old.

## COBORN CANCER CENTER:

- 48 chairs for patient treatments and 3 central line lab spaces with about 25 RNs.
- **Patient Population:** Oncology, rheumatology, gastroenterology, hematology, post-transplant and antibiotics.

## EMERGENCY TRAUMA CENTER (ETC):

- 40-bed unit with about 84 RNs
- **Patient Population:** Level II Trauma Center seeing all ages and conditions.

## EMPATH UNIT:

- 12 recliner unit
- **Patient Population:** Patients who are experiencing a mental health crisis. We serve patients with mental health and substance use disorders.

## FLOAT POOL:

- 489-bed unit because we float within the St. Cloud Hospital with approximately 100 RNs.

## INPATIENT ENDOSCOPY:

- 15 pre- and post-procedure and 5 procedural rooms with ability to travel within the hospital for care with about 25 RNs.
- **Patient Population:** Gastroenterology, pulmonology and bariatrics.

## INPATIENT MENTAL HEALTH UNIT:

- 20 adult and 8 adolescent bed unit with about 31 RNs
- **Patient Population:** Patients with mental illness and co-occurring disorders (mental health and chemical dependency). Majority of our patients are admitted involuntarily and go through the civil commitment process. Many patients suffer from illnesses such as schizophrenia, schizoaffective, bipolar disorder, acute psychosis, depression and suicidal ideation.

## INPATIENT PEDIATRICS:

- 22-bed unit including PPCU, PICU and general with about 30 RNs
- **Patient Population:** Newborn to age 17 years of age patients. We also do outpatient sedations, respond to peds codes throughout the hospital and administer nitrous oxide (laughing gas).

## INPATIENT REHABILITATION:

- 17-bed unit with about 23 RNs
- **Patient Population:** Post-acute patients transitioning home, but they are more medically complex. Most common: stroke, TBI, spinal cord injury, trauma with multiple fractures, amputation and debility.

## INTENSIVE CARE UNIT (ICU):

- 29-bed unit with about 110 RNs
- **Patient Population:** Medical, surgical, trauma, neuro, stroke and cardiac surgical.

## MEDICAL PROGRESSIVE CARE UNIT (MPCU):

- 19-bed unit with about 48 RNs
- **Patient Population:** Seriously ill, step-down adult patients who require more care than on a general medical unit and less than ICU.

## MEDICAL UNIT 1:

- 25-bed unit with about 40 RNs
- **Patient Population:** General medical: COPD, gastroenterology bleed, alcohol withdrawal, pneumonia, chest and abdominal pain, pancreatitis, cellulitis and sepsis

## MEDICAL UNIT 2:

- 27-bed unit with about 50 RNs
- **Patient Population:** Adults with chronic medical conditions with acute flare (CHF, liver failure, COPD, renal failure) infectious: pneumonia/respiratory, UTI, wound and sepsis.

## NEONATAL INTENSIVE CARE UNIT (NICU):

- 36-bed unit with about 85 RNs
- **Patient Population:** Infants born requiring a critical care environment.

## NEUROSCIENCE SPINE UNIT:

- 45-bed unit, 8 being neuro progressive care (higher acuity), with about 87 RNs.
- **Patient Population:** Craniotomies, cranial bypass surgeries, aneurysm clippings, cervical fusions, lumbar fusions. Stroke, seizure, multiple sclerosis, Lou Gehrig's disease, Guillain-Barre syndrome. Thrombectomies, cerebral angiograms, aneurysm stentings or coiling, neuro trauma and traumatic brain injury.

## OBSERVATION UNIT:

- 14-bed unit with about 25 RNs
- **Patient Population:** Adult medical, surgical, post procedure and cardiac. It's a short stay unit frequently caring for chest

pain, syncope, dehydration, pain management, infections, laparoscopic surgeries and patients needing rehab placement.

## ONCOLOGY:

- 39-bed unit with about 75 RNs
- **Patient Population:** Serving 3 different adult patient populations: medical, oncology, and end of life. Perfect for nurses looking to use a variety of skills and provide holistic care to patients and families.

## ORTHOPEDICS – BONE & JOINT:

- 29-bed unit with about 40 RNs
- **Patient Population:** Total hips, knees, shoulders, traumas, fractures, infections of joints, some medical overflow which adds to some variety.

## POST-ANESTHESIA CARE UNIT:

- 33-bay unit with about 40 RNs
- **Patient Population:** Orthopedics, cardiac/endovascular, plastics, neuro, pain, dental, eye, bariatrics, podiatry, oral/maxillofacial, vascular, urology, OB/GYN, ophthalmology, ranging from infants to 100+ years old.

## SURGERY:

- 26 operating rooms, typically 19 running daily with about 55 RNs.
- **Patient Population:** Caring for all surgical patients except transplant recipients and burn victims in the operating room.

## SURGICAL CARE UNITS 1 & 2:

- Sur1 is a 38-bed unit with about 60 RNs
- Sur2 is a 23-bed unit with about 40 RNs
- **Patient Population:** Post-op care unit that cares for patients that need hospitalization after surgery. We care for patients from general surgery, urology, vascular surgery, OB/GYN, plastics, bariatrics, ENT and trauma. Our average length of stay is about 3.5 days.

## TELEMETRY:

- 36-bed unit with about 70 RNs
- **Patient Population:** Cardizem drip, heart failure, chest pain, arrhythmias, angiogram, angioplasty, pacemaker, EP study, ablations, heparin drip, amiodarone drip and nitro drip.

## VASCULAR ACCESS TEAM:

- A mobile team that responds to patient consults throughout the organization and we have about 20 RNs.
- **Patient Population:** Patients of all ages and departments throughout St. Cloud Hospital.
