

# The way we work at U.S. Bank

We offer career opportunities at branch locations across 26 states and corporate locations spanning the U.S., Canada, Europe and the United Kingdom. How we work as an organization directly reflects our commitment to building meaningful relationships with the customers we serve and driving team collaboration across the company.

## Onsite:

Team members who are in an onsite role work primarily at a U.S. Bank location. These roles typically are customer-facing.

## Hybrid:

Team members who are in a hybrid role typically spend three days a week at a U.S. Bank location, while having flexibility on their work location for the other working days.

## Remote:

Some team members within the organization are in remote roles and work outside of a U.S. Bank location.
